

# Kevin John

## Senior Software Engineer

✉ kevinjohn00318@gmail.com ☎ 06543 77 55 68 📍 Niederweiler

### PROFILE

---

Have +6 years of extensive experience working in Javascript/Typescript frameworks such as Express, React, Vue and Angular

Have 3 years of extensive development experience in Blockchain, EVM based smart contract development using Solidity and Vyper, and Web3 integration

An interest and passion for working on Blockchain-based systems, ranging from DeFi, to NFTs, to decentralized exchanges

Experience as a core member of a software development team with significant contributions

Software design experience with architectures that have scaled from the simple to the complex

Be excited to work in an environment that involves continual adaptation and change, be open to picking up new technologies and frameworks

### LANGUAGES

---

english

### EDUCATION

---

#### Bachelor's of Computer Science

Heidelberg University

04/2008 – 05/2012

Heidelberg, germany

### SKILLS

---

#### Programming Language

javascript typescript python php

#### Frameworks and Libraries

jQuery ExpressJs Angular React Vue.js Laravel Django

#### Database System

MongoDB MySQL PostgreSQL pinecone

#### Cloud provider

AWS

### PROFESSIONAL EXPERIENCE

---

#### Front-End Dev

KOKOEN GMBH

09/2015 – 05/2018

Saarbrücken,,

Germany

Work directly with founders and collaborate on feature discovery, ideation and delivery.

Meeting with the development team to discuss user interface ideas and applications.

Reviewing application requirements and interface designs.

Developing and implementing highly responsive user interface components using react concepts.

Writing application interface codes using JavaScript following react.js workflows.

Troubleshooting interface software and debugging application codes.

Developing and implementing front-end architecture to support user interface concepts.

Monitoring and improving front-end performance.

Documenting application changes and developing updates.

#### Full-Stack Web Dev

QIMIA GMBH

07/2012 – 08/2015

Köln, germany

Research, UI / UI design and implement technical specifications for the product based on client requirement.

Ensure projects are built to meet performance, security, SEO, and functional client requirement.

Assist with testing, debugging, documentation, and overall quality assurance of projects. Involved in the requirement analysis, design, development, review, deployment as well as in the testing of the project. After service for individual client and upgrade website based on client desired feature and revamp the website on a quart basis

#### **Senior Full-Stack Dev**

*ALAND CLOUD GMBH*

11/2018 – 09/2020  
Berlin, Germany

Investigate and specify ideas for innovative blockchain applications.

Design and develop proof of concepts for blockchain applications.

Design and develop blockchain related microservices and APIs comfortably.

Plan and execute performance tests using test-driven development.

Manage individual project priorities, deadlines, and deliverables

Work with the team to tackle complex challenges associated with blockchain and other Web3

technologies

#### **Full-Stack Blockchain Dev**

*CUBEWARE*

11/2020 – 08/2023  
München, Germany

Research, develop, and test various technologies based on blockchain

Build the protocol components that integrate across different blockchain systems

Build smart contracts in Solidity for EVM blockchain

Design, scope, and estimate complex contract based on requirements given

Writing efficient, scalable, robust, and maintainable code

Enthusiastically collaborate with a small team to plan projects at the task level

Collaborate with cross functional partners on all aspects of product development

Senior Full-Stack D
